

At Staples, we want all children and adults to feel safe with the products and services we provide. Therefore, we are actively working with, among other things, the Swedish Environmental Protection Agency's project Non-toxic Pre-school. The requirements for non-toxic preschool can be found in full on the webpage of the National Agency for Public Procurement;

<http://www.upphandlingsmyndigheten.se/en/sustainable-public-procurement/sustainable-procurement-criteria/toxic-free-preschool/toys-and-hobby-material/toys-and-hobby-material/>

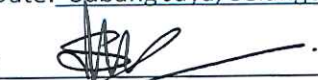

As a supplier of toys and / or hobby materials, we assume that you want to work with us to live up to the current requirements and create a safe and non-toxic environment for children in schools and kindergartens. By signing this document, you certify that you work in accordance with the guidelines and requirements set up by the National Agency for Public Procurement and comply with the latest requirements specified by the procurement authority through its website, and may provide appropriate verifications and certificates upon request. On the next page, " *Appendix item list Non-toxic preschool* ", please clarify which products meet the spearhead requirements - see below list of requirements and approved forms of verification.
