Optimize your total cost of ownership by reducing hidden expenses

Transform guests' hand wash experience with the LESSEAU manual dispenser - the ultimate solution for reducing waste, improving refill efficiency, and cutting maintenance costs.

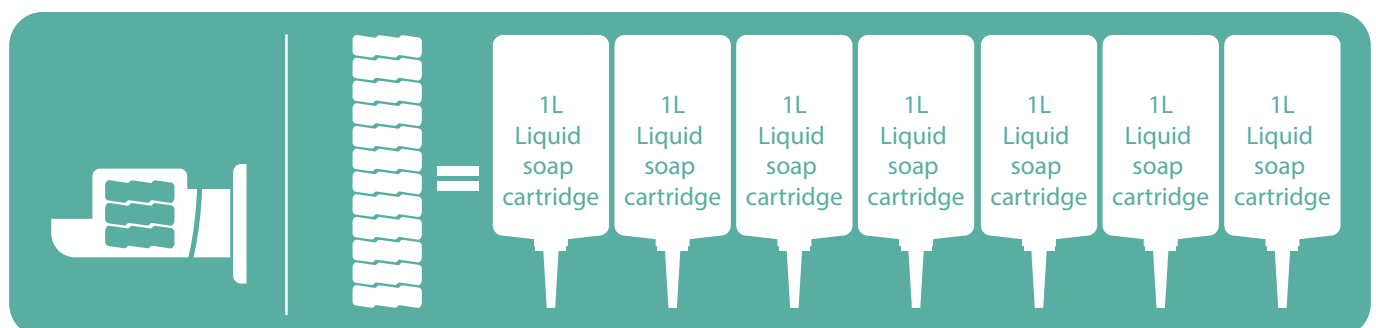

Maximize efficiency: innovative design ensures **100% of the solid hand wash bar** is used, compared to traditional dispensers that can waste up to 25% of product

Never-empty dispenser functionality: say goodbye to endless checking and refilling. The dispenser features a unique, **patented technology** allowing never empty functionality with three hand wash bars (providing over 1800 doses) and a convenient product level indicator, ensuring there is always product on hand

Space-saving design: the compact, space-efficient design requires less storage than liquid hand wash refills, helping you to save valuable space while still providing top-level hygiene

Simple, effortless maintenance: enjoy **easy installation**, intuitive operation, and low maintenance. With a robust design and no clogs or dirt traps, the LESSEAU manual dispenser makes your life easier

Save on costs: With new packaging and waste regulations in effect, stay compliant while significantly reducing both **waste disposal costs** and **operational expenses**

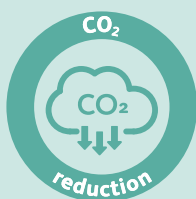

12 LESSEAU hand wash bars are equivalent to 7× 1L liquid soap cartridges!

Make a positive impact on the environment by visibly elevating your sustainability credentials

LESSEAU dispenser's solid hand wash patented technology allows you to easily eliminate hard-to-recycle plastic packaging from your washroom hand wash operations.

The hand wash bars are a game-changing, plastic-free innovation that drastically reduce your environmental footprint. Compared to traditional liquid or foam closed systems, their compact size and lightweight design, allows significant reduction in transport costs (95% less water transported). This means fewer emissions and less environmental impact, all while maintaining high-performance hygiene standards.

Impress your customers with a memorable experience they will want to share

Compact versatile dispenser: Our stylish manual hand wash dispenser fits various washrooms seamlessly, even the smallest washrooms, offering a modern and elegant experience

Unique user experience: Our finely ground solid hand wash bar provides an instant rich lather that creates a memorable sensory experience to delight your customers

Differentiated 'wow factor': The elegant design and patented technology of the LESSEAU dispenser paired with the natural hand wash bars, transforms hand washing into an exciting experience

A hand washing experience that's not only good for the planet but feels great

With 99% responsibly sourced natural ingredients, free from undesired additives, and no palm oil, it's the perfect eco-friendly choice. The finely ground flakes dissolve instantly, creating a pleasant foam that leaves no residue on hands or sinks, enhancing the cleanliness of your washrooms.

LESSEAU hand wash bars are available to suit a variety of users - whether they want an explosion of their senses with a luxurious fragranced experience or a mild, eco-certified, unfragranced hand wash for sensitive delicate skin.
