STRATA BASE white

Explore new heights of elegance and sophistication with STRATA BASE, where form meets function to create a perfect balance between modernity and timelessness.

STRATA BASE black

- **High luminous amplitude** : 66 cm wide, its textured diffuser provides high-quality lighting for excellent visual comfort by limiting glare with its EYE-CARING system.
- **Modern design** : its sleek, streamlined shape will enhance your desk. The quality and finish of its materials make it a stylish, airy object that will fit perfectly into your workspace.
- **Settings** : easy to use and quick to access (located on the head), the touch-sensitive buttons provide a smooth and practical experience to adjust the lighting to your preferences. You can adjust light intensity and color temperature.
- **Smart** : the first model on the market in Europe equipped with a wireless remote control, allowing you to adjust the lighting from anywhere in your workspace.
- **Clever** : STRATA Base has a memory function for light intensity and color temperature. Thanks to its 4 TIMER functions, you can also save energy.
- **USB port type-A** : you can charge your smartphone via its USB port.

Warranty : 2 years
Max height : 60 cm
Min height : 40 cm
Materials : aluminium / ABS / silicon

ENVIRONMENT

UNILUX focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction and continuous improvement are at the core of our concerns.

OUR EXPERTISE

Task lighting

In the office, we are often exposed to constant artificial lighting. Poor lighting quality can lead to headaches, sleep disturbances, and decreased concentration. According to a recent study, only 34% of workspaces achieve the recommended illuminance level of 500 lux by Occupational Medicine, in accordance with DIN EN 12464-1* standard. Task lighting is frequently used to provide additional brightness when the primary lighting is insufficient.

* Standard setting the limits that workplace lighting must adhere to.

Dynamic lighting : a source of well-being

Having appropriate dynamic lighting is essential to be effective in your daily activities and to avoid the harmful effects of poor lighting. Improved productivity, increased dynamism, and a positive mood are the results. Therefore, each individual should pay special attention to their circadian rhythm, a biological cycle that controls various physiological processes and is influenced by light over a 24-hour period.

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.
