The EK-Declaration contains information required by Annex IV Regulation (EU) No 10/2011 regarding Declaration of Compliance.

If the material will be used as component in finished contact materials the EK-declaration shall also include information about relevant restrictions (SMLs) according to ANNEX IV.

Information under art 5, 7, 8 and 9 on the front page - NB! This will be important information to the user of the EK-Declaration 5. the majority of the supporting material specific documentation from the producers are referring to the regulation listed

- 7. give(s) information of any substance also listed in the food regulation, Dual Use Additives (DUA). For confidential reasons you may use an enclosure to specify
- 8. give(s) actual or general applications for types of foods, storage time and temperature, and any area/volume restrictions for the material
- 9. standard text from EK is that a material generally is not tested for absence of smell and taste deterioration, unless this is specified here under point 9 use of the functional barrier concept should be indicated - here one may also list SMLs when the material is a component of the finished material

Certification – application

The applicants for the declaration shall obtain updated versions of conformity statements and other documentation from the producers of raw materials, the producers of packaging materials and the test laboratories, depending on how one is affected by the requirements in the regulation. EU Regulations and Directives are advanced as EK reference 6 months after adoption at the latest. Filled in EK-Declaration and a Documentation Summary form shall be forwarded to the EK-secretariat at Nofima AS, with documentation enclosed. The secretariat issues a stamped EK-declaration after examining the documents. Checklists or guidance is available from the EKsecretariat.

Extract from the articles or the Packaging Convention, EK

Article 1. Main objective (first section)

The objective of the packaging convention is to assist its members to secure packaged foodstuffs against transfer of components from the packaging material which can:

- endanger human health
- bring about an unacceptable change in the composition of the foodstuffs or deterioration of the organoleptic (smell & taste) characteristics thereof

Article 5. The EK-declaration

The declaration of Packaging Convention, EK-declaration, is based on written conformity statements from the converters and the producer of raw materials, which is controlled by the Packaging Convention secretariat. The EK-declaration is valid for 2 years.

Article 8. The Convention's demand for documentation The Convention's demands for documentation are conformity statements and test reports according to all elements in the safety

- demand of the Convention. An EK-Declaration will be issued after:
- control of supporting documentation from the producers of the packaging raw materials, or
- presentation of complete declarations/certificates from known institutions

Demands for written documentation are a part of the EU regulation. Detailed requirements are formed based on the regulation and notes and guidelines from Mattilsynet - The Norwegian Food Control Authority.

EK Requirements - European and national regulation, and recommendations and resolutions for the majority of the materials

FOR ALL MATERIALS: Regulation (EC) No 1935/2004 and (EC) No 2023/2006. However, the requirement in Regulation (EC) No 1935/2004 for absence of organoleptic deterioration can only be ensured after testing with the actual foodstuff.

PLASTIC: Regulation (EU) No: 10/2011, 1282/2011, 1183/2012, 202/2014. Regulation (EU): 2015/174, 2016/1416, 2017/752, 2018/79, 2018/213, 2018/831, 2019/37, 2019/1338, 2020/1245, 2023/1442, 2023/1627. NB! According to these regulations relevant information about Dual Use Additives must be presented for the food industry. Where detailed EU-measures are not yet established the BfR-Recommendations (or Warenwet or FDA) can be used.

PAPER: BfR- Recommendations XXXVI (or Warenwet/FDA)

PLASTIC COATED PAPER: For the plastic, see PLASTIC; for the paper see PAPER

Documentation

Compliance with the EK-requirements in written documentation.

- Positive list and other list requirements: Compliance declarations from producers of the raw materials and the packaging producers
- Restrictions (OML, SMLs, OMs): Compliance declarations from raw material producers and/or the packaging producer and/or test laboratories regarding migration, modelling and/or calculation
- General requirements of Regulation (EC) No 1935/2004 and (EC) No 2023/2006: Compliance declarations from raw material producers shall include reference to Regulation (EC) No 1935/2004 and (EC) No 2023/2006. From the packaging producers and the importers/distributers the compliance declarations shall be more detailed by also listing the requirement they fulfil; for example traceability, labelling, quality assurance, quality control and documentation. More information is obtainable from the EK Secretariat.

Testing, modelling and calculation shall be according to EN-standards and other standards available. Where applicable the test conditions (temperature, time, simulants) shall be according to Regulation (EU) No 10/2011(with updates).
