at Work

Sterisol

Sterisol ULTRA Liquid Soap

Properties

A synthetic, very mild liquid soap developed for people with sensitive skin.

The product is gentle thanks to the following:

- Contains no preservatives
- Perfume-free
- Contains no colourants
- Rinses easily
- Around 5.5 on the pH scale

Fields of application

ULTRA Liquid Soap is the perfect choice for any environment and works well with hard water and at low temperatures. ULTRA is also suitable for use as an unscented shampoo and shower gel. It is the perfect choice for health-care settings and the food industry, and should be used on wet skin. The cleansing effect – for industrial use – is however strengthened when used on dry hands. Must be used with dispenser, otherwise leakage may occur.

Sterisol AB Box 149,

Tests

The product is dermatologically tested, with excellent results.

Environment

Nordic Swan Ecolabelled. Biodegradable raw materials. Low packaging weight. One 700 ml bag contains 11 grammes of plastic material compared to a traditional bottle, which contains 70 grammes. A discharge rate of around 99% means less waste.

Ingredients

Aqua, Sodium Laureth Sulfate, Sodium Chloride, Glycerin, Cocamidopropyl Betaine, PEG-4 Rapeseed-amide, PEG-7 Glyceryl Cocoate, Citric Acid, Octadecyl di-t-butyl-4-hydroxyhydrocinnamate, parfum (only in perfumed version).

Washing instructions

1. Moisten your hands with lukewarm water. Leave the water running.
2. Dispense soap and rub hands together, causing the soap to become foamy.
3. Rinse off the soap completely, eliminating any soap residue.
4. Dry with single-use paper towel. Cloth towels increase the spread of disease.
5. Turn off the tap with a paper towel. If you have dry skin, use a hand cream after washing your hands.
