Technical Data Sheet 10/2010

monta film 250 white

Application

monta film 250 is particularly suitable for effectively marking goods for advertising purposes. It has an excellent adhesion to various surfaces. Printed monta film 250 is often used for indication purposes.

Properties

- high tensile strength and adhesion strength
- excellent adhesion to various surfaces
- moisture resistant
- resistant to diluted acids and alkalies
- heat resistant for short exposure up to about + 70° C
- low temperature resistant down to about - 20° C after application at room temperature
- suitable for printing

| Technical Data | Unit | |
|-------------------|-----------------|---------------------------|
| Base | | rigid PVC film |
| Adhesive | | natural rubber |
| Breaking Load | N/25mm N/cm | minimum 100 minimum 40 |
| Thickness | mm | 0,055 ± 10 % |
| Adhesion Strength | cN/25mm N/cm | 500 ± 150 2,0 ± 0,6 |
| Colour | | white |
| Core Diameter | mm | 76 |

Please note that all information is based on manufacturer's data. We therefore recommend testing the suitability of the self-adhesive tape for the designed application or use.
