## ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

### **Product**

White Doilies

### **Raw Material**

White Kraft paper

### **Packaging**

Inner: Polyethylene (PE)

Outer: Corrugated board boxes

### **Field Of Application**

The products can be used for serving of dry, wet and fatty foodstuffs at a temperature between 5°C and 40°C.

### **EC Directive 94/62/EC on Packaging and Packaging Waste**

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

### **Environmental Aspects**

#### **Product**

The paper is made of ECF-pulp (Elementary Chlorine Free), i.e. the bleaching process does not involve any chlorine gas.

#### **Packaging**

Polyethylene is refined from mineral oil or natural gas.

The polymer consists simply of carbon and hydrogen.

The corrugated board is based on recycled fibres.

#### **Product Safety**

The products fulfill the following:

- EU Regulation 1935/2004/EC
- EU Regulation 2023/2006/EC
- BfR, Bundesinstitut für Riskobewertung, XXXVI, where paper, cardboard and cartons as food packaging are regulated.
- The paper is made from virgin fibres, in order to be used in contact with foodstuffs.

### **Management Of Used Products**

#### **Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

#### **Recycling**

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

#### **Validity**

This is a copy of a document issued 2017-07-11. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs.
