

Aneby: 2022-03-31

Dear valued Sealed Air customer,

We are ready to take the next step and from 15<sup>th</sup> of May we will move all remaining Regular AirCap to minimum 30% recycled content.

Customer Service will make sure that you get new SKU.s and you will also receive sample materials during next week.

**Please note, recycled AirCap will be delivered “as it is” which means that it can be in different colors (see picture).**

We ask that you address any questions to your local Sealed Air Account Manager.

We look forward to continuing to provide you with the solutions and industry-leading expertise that you have come to expect from Sealed Air.

Sincerely,

Mikael Bäckström  
Sales Director Nordics  
Protective Packaging
