Print labels in black and red with the NEW QL-800 series

For a label printer that really delivers, go for the Brother QL-800. Our smart desktop printer is suitable for high speed, volume printing and you can now create highly visible black and red address labels in seconds on a new two-colour continuous length roll to prevent late shipments. Alternatively, print in black on continuous roll and pre-sized labels.

Contact your office supplier today and see the difference yourself.
