

See the difference

Print labels in black and red with the NEW QL-800 series

Create eye-catching, compliant food labels with the smart Brother QL-820NWB desktop label printer. Our new two-colour continuous length roll lets you highlight allergens, use-by dates and promotions in black and red. Alternatively, print in black on continuous roll and pre-sized labels. Wi-Fi and Bluetooth connectivity enable you to print from mobile devices, while an LCD touch panel lets you print convenient standalone labels at the point of preparation.

Contact your office supplier today and see the difference yourself.
